

Why **YOU** should attend

Foreign Animal Diseases for Practitioners...

Take this self quiz:

- 1) When is the last time you sat down to review the clinical signs of FADs?
- 2) Do you know which FADs are most likely to appear in the US and why?
- 3) Do you know how FAD's will most likely enter the US and which species may be affected first?
- 4) Do you know who to call first if you see a suspected FAD?

We have a new afterhours phone number that can be stored in your cell phone for emergencies.

302-233-1480

***Animal
Disease
Hotline***

Poultry and Animal Health

Serving Agriculture and
Protecting Consumers

Mission of the Poultry and Animal Health Section at DDA

To protect the health of domestic animal and avian species from the introduction and spread of infectious and contagious diseases, including those transmissible to the human population.
